Mr. Blitch, Chairman Joint Committee to visit the Deaf and Blind Institute at St. Augustine, submitted the following report;

Which was ordered spread upon the Journal:

SENATE CHAMBER,  
TALLAHASSEE, FLA., May 8, 1893. }

HON. W. H. REYNOLDS,

President of the Senate:

SIR—The Joint Committee, consisting of Senator Newton A. Blitch and Representatives George L. Baltzell and A. M. Michelson, appointed to visit the State Institute for the Blind and Deaf-mute, located at St. Augustine, have performed that duty, and having made a thorough examination of the school, the methods of instruction, its management, the buildings, etc., beg leave to report as follows:

It affords us great pleasure to state that our visit to and observations at this institute were very gratifying indeed. No one was apprised of our coming, and we found everything neat and orderly in the buildings and about the grounds. The attendance is increasing each year, and we feel confident that good work is being done in this school, established and maintained by our State.

Your committee were agreeably surprised to see the wonderful progress being made by the pupils in this institution, the blind, deaf and dumb, and the demeanor of the pupils toward their instructors furnished conclusive evidence to our minds that the children are kindly treated and properly cared for by those entrusted with the responsible work of teaching and training these unfortunate ones.

There the boys are taught carpentering, photography, printing and gardening, and the girls are taught needlework and general housework. The blind are instructed in music and beadwork, and it is the intention of Prof. Caldwell to teach them basket making and broomwork.

Prof. Caldwell and all of his assistants were very affable and courteous, and aided the committee in every way possible in their investigations, cheerfully imparting all necessary information.

The modes of teaching pursued in the several departments were fully demonstrated in our presence, and it is truly wonderful how readily the deaf, the mute, and even the blind are made to understand and learn.

In the white department there are thirty-six pupils—thirty-two deaf mutes and four blind. Of the former sixteen are male and sixteen female. Of the blind, three are male and one female.

In the colored department there are twenty-three pupils—eighteen deaf mutes and five blind. Of the former ten are male and eight female. Of the blind three are male and two female. The total attendance is sixty-nine.

These good people are performing a work, which speaks for itself and for them, and for which they deserve the hearty sympathy and earnest support of every citizen of Florida.

The "Institute Herald" is published semi-monthly by the pupils in the institute, and thus they are taught the art of printing, which makes them take a deeper interest in reading, and the public is kept informed as to the work and progress of the school.

We would respectfully recommend that the board of managers visit the institute at least once each year, while the school is in session.

In regard to the needs of the institution, we direct special attention to the following:

Prof. Caldwell in his report, dated October 25, 1892, says: We are uncomfortably crowded with our present numbers, and it will be necessary to make additional provision for accommodations, if more pupils are to be admitted.

Referring to this same subject in his last annual report, Hon. A. J. Russell says:

If the increase of pupils should continue, the institute will soon be unable to keep them in the present buildings and on the grounds.

These suggestions, from such trustworthy sources, are certainly deserving of earnest and mature consideration by this Legislature.

This is a State institution—a noble State charity—established for a laudable and humane purpose, where a great and good work is being faithfully performed, and Florida cannot now, in our opinion, afford to neglect the institute, check its progress or retard the advancement of the unfortunate children of our State, and thereby deprive them of the privilege of enjoying the full benefits of this great benefaction.

Therefore, the committee recommends that this Legislature make the usual annual appropriation for the institute.

It is estimated that there are more than one hundred children scattered throughout the State who are entitled to the benefits afforded by this beneficent State institution, and we cannot close this report without admonishing the parents of these unfortunate children, that it is a duty they owe to the State, to society, and to their dear ones, to as quickly as possible place them in this institute, in order that they may receive and enjoy all the benefits there tendered to them by the State, and thereby become useful members of their respective communities.

Respectfully submitted,

NEWTON A. BLITCH,

GEO. L. BALTZELL,

A. M. MICHELSON,

Committee.
